Provide Necessary Services to all clients	Provide intake assessment to determine need. Provide women with information on, referral to and assistance with securing pregnancy and child support services. Utilize resource database to provide information and make referrals.	95-110	The Necessary Services Intake questions were asked of clients who came into the office for financial grants and diapers (new registrations for the diaper program). Clients were provided phone numbers, addresses and/or brochures for services that they are interested/in need of. Clients were given maternity clothes and/or baby clothes from Birthright when they identified this need.	57
Provide Necessary Services Assessments Only	Staff provides clients only intake assessments, information on, referral to and assistance with securing necessary services	n/a		n/a

Challenges:

Diapers: In order to confirm that the child getting diapers through the diaper program is under 1 year old, we are requiring women to show us the baby's proof of birth. But many women do not have the POB with them when they come into the office. For their first visit, we will still give them 36 diapers. But if on subsequent visits they still have not shown us Proof of Birth, we will only give 12 diapers. We do have many women who are not showing us the proof of birth. We don't know if this is because they truly are forgetting the document or because the baby is over 12 months old?

Intake: All 16 financial grant clients completed the intake but only 47 of the 55 diaper clients. Some of the Birthright workers neglected to complete the intake during the clients' first diaper visit. We have reminded the workers of the importance of completing the form and have added notes to these clients' diaper forms so the form will be completed with their next visit.
